

A Great Medicine for Females.

Thousands of females have been in need of a medicine, purporting to be specific in the various diseases and derangements to which the delicate form of woman is rendered liable. The result of all these attempts has been to impart momentary relief to the nervous system, and false vigor to the muscles; but this relief has been succeeded by a depression and prostration greater than before; and the repeated attempts of invalids to build themselves up by these false remedies, have finally ended in destroying what little vital organization was left. But in finding Boerhaave's Holland Bitters, it is a purely vegetable compound, prepared in the celebrated Holland Professor, Boerhaave. Under its influence, every nerve and muscle receives new strength and vigor, appetite and sleep return and finally, perfect health. See advertisement in another column.

AUGUST APPOINTMENTS.
Dr. L. V. Pierce will be in the following places remaining but one day in each place:
Youngstown Union House, Tuesday Aug. 17.
Warren Gasch House Wednesday Aug. 18.
Cathlamet House Thursday Aug. 19.
Salmon River House Friday Aug. 20.
Columbia House Saturday Aug. 21.
New Lisbon Union House, Mon. August 23.
Wesleyville White House Tuesday Aug. 24.
Haworth House Wednesday Aug. 25.
Mauve Youngling House Thursday Aug. 26.
Carrollton Union House, Friday Aug. 27.
Marion House at the Public House, Sat. Aug. 28.
Newmarket American House Monday Aug. 29.
Vana William House Tuesday August 30.

Dr. Pierce would inform that he is ready to receive calls from all persons who are afflicted with diseases in the most complicated, as well as the most simple form; and as he has had the most perfect success in relieving the suffering of those who have applied to him, he flatters himself that persons seeking his advice, will never regret it, and after following his mild prescriptions, will not complain of diseased spots or ruined constitutions, from the effect of medicine given in great doses, without a thought of the future happiness and health of the patient.

Dr. Pierce thinks a small quantity of medicine properly administered, with the advice which he can give in regard to diet, exercise, &c., will, if strictly followed, build up rather than undermine the constitution of one who are already attacked with disease.

Those persons desirous of consulting a Physician, will do well to call upon Dr. P., as he will change nothing for advice. All intending to call, should call early as possible, as the time is limited, and the appointments will be punctually kept as above. June 9, 1858.

Road Notice!

The Supervisors of Roads and Highways in Carroll County, are hereby notified that the Commissioners of Carroll County, at their June Session, "in accordance with the law passed April 16th, 1858," ordered that the line for working out the Road taxes, charged to the property holders of said county, be extended to the first day of October, 1858.

ALEXANDER A. RUTAN, June 9th, 1857.

THE CLEVELAND.

WOOL DEPOT,

Established in the Winter of 1854.

HAS been in operation over four years, during which period, though its progress has been retarded by the adverse years of 1854 and 1855, the probability of the plan has been clearly demonstrated. That the house affords superior advantages to the WOOL GROWERS OF THE WEST, as a medium for passing their wools into the hands of the manufacturer, is now no longer a question. But although a very large number of wool growers have availed themselves of these advantages during the last four years, yet, surprising as it may appear to many, our receipts have been larger from Merchants and Wool-buyers than from Wool-growers, and this may be accounted for mainly from the fact, that, as a class, Wool-growers have been more easily influenced and misled than the former, by the statements of a few operators who are wholly opposed to all efforts having for their object the systematizing of the wool trade, or the enhancement of prices to the producer.

The past year, characterized as it has been by the most disastrous financial embarrassments, has been one of the most unfortunate for negotiating and managing sales of wool, and the fact that the enterprise has been remarkably successful, notwithstanding these disadvantages, and given almost universal satisfaction to consignors, should, we think, inspire sufficient confidence to induce large consignments from wool growers.

To those who have been prejudiced by false rumors, and who have manifested a want of confidence we have frequently made advances equal to the price they have been offered for their wool. Such advances, however, should not be required, as the enterprise was started for their benefit, and this object has been steadily kept in view, and we hope the encouragement will be such as to enable us to continue our efforts. Indeed, wool growers, particularly the western year, cannot afford to do without such influence and facilities as this House can extend to them.

This year must be a peculiarly favorable one for wool growers to test the merits of the Wool Depot system, and we hazard nothing in assuming that those who are disposed to consign to us, that they will avail themselves of

BETTER PRICES

than they can obtain by any other method, and would, we trust, become permanent friends of the enterprise.

At this House, the Wool is Closely Classified! Into different styles and grades, thus rendering it more attractive to the manufacturer, who frequently does not wish to purchase mixed lots. Here he can obtain the particular grade of wool adapted to the quality of goods he manufactures, and thus can afford to

PAY 3 TO 5 CENTS A POUND MORE than under the old system of employing agents and sub-agents to canvass the country to procure his stock. Here he can find uniform grades, which are so well known to Eastern Manufacturers, that they only require a reading of the label, or a letter or telegraph dispatch, ordering any particular grade and quantity.

To those who wish to consign Wool to us, we will forward sacks, by express or otherwise, numbered and marked so that no other direction would be required to have the Wool reach us.

WOOL TWINE

For tying up wool, will be sent to those ordering, at Manufacturers' prices.

To show our confidence in the future Wool Market, we propose to make more liberal CASH ADVANCES than heretofore, if desired.

Hoping to receive a more extended patronage from the wool-growers and Merchants of the west, we promise undivided attention to their interests, and remain

Very truly, &c.,

BOERHAVE'S

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE.

And the various affections consequent upon a disordered

STOMACH OR LIVER. Such as Indigestion, Acidity of the Stomach, Colicky Pains, Headache, Loss of Appetite, Dependence, Constipation, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fellow-laborers scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public knowing that it is truly wonderful medical virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this beverage will be disappointed; but to the sick weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all other imitations.

Sold at \$1.00 per bottle, or six bottles for \$5.00, by the

BEATTY HOUSE.

THE Subscriber respectfully represents to the citizens of Carroll county, and strangers visiting Carroll, that he has leased the Hotel heretofore known as the American House, and opened the same for the accommodation of the public.

The house has been repaired and renovated throughout with reference to the convenience and comfort of guests.

The proprietor flatters himself that his long experience in this business justifies him in the belief that he knows the wants of guests, and that he will be able to gratify them.

The table will contain the best that town or country can afford and will be prepared by those only who have years given their attention to this part of the business.

The stabling connected with this house has also undergone repairs, and is such as to satisfy the most careful horse master.

Every effort will be made for the comfort of the public, and the proprietor will endeavor to make his guests feel during their stay with him, that they are at home. To his old friends, patrons, who have known and patronized his heretofore, he especially recommends himself and solicits their custom.

The prices will be as low as they can possibly be made.

THE EXILES OF FLORIDA.

BY JOSHUA R. GLIDING.

Illustrated with fine Engravings. One Volume, 12mo. 320 pp.

THIS work will portray, with eminent ability, the crimes committed by our Government against the Maroons who fled from South America and other Slave States, seeking protection under Spanish laws. It will also show how the Spaniards treated the Indians of Florida, and how the United States treated the long-tongued FLORIDA WAR.

The object of the work is to operate upon the political morality of the country, by calling forth the sympathies and moral feelings of the people; and by condemnation of the tyranny of the Executive and its supporters, should commend it to the attention of every American citizen.

The long and distinguished services, high personal character, and known ability of the writer, will be a sufficient guaranty of its merits.

The Washington correspondent of the New York Evening Post, who examined some of the advance sheets, says—

"I have examined it with pleasure and instruction. The work will prove a valuable history of important events which will undoubtedly be passed over by those who claim to be the friends of the country, either in consequence of the peculiar institution which it concerns, or because they have not the facilities for acquiring information on the subject.

To any other man than Mr. Gliding, the subject of the Spanish Maroons or Seminole wars would be a complex and remote. Perhaps there has been no subject which he has more thoroughly investigated in the course of his public duties, nor any that he comprehends better than this. The book will cover a vast field of important information besides that of which it is the special object of the author to treat.

The character of Osceola, as delineated by the pen of Mr. Gliding, is grand to contemplate. His parentage, marriage, romantic life and noble death, make up a most thrilling and instructive chapter in the work; and while the whole is produced with a true and clear and concise style of the author, it is also beautified with a romance more charming than can be gathered from the world of fiction."

DISCOVERY—

In the year 1853, a wanderer in search of health roamed through the forests of the great North West. The men of science and of large experience, who dwelt in the neighboring States, had failed to cure him. He went forth in hope from the city of the Crescent to traverse the waters of the Indian's Bonga Huma Natchitoches, on whom tower the gray of a century and a half had fallen, did not stay his footsteps. Overland he traveled over byes and hills towards the setting sun. For a time he tarried where the Chitimha dwelt, upon the sunny slopes which are washed by the spring of the misty mountains. There beneath the spreading branches of the Bois D'Arc, and the gloom inspiring Cypress, he discovered Epsom whose virtues seemed almost to work miracles. The lungs expanded beneath their influence, new life gushed through every vein, and cooled along each nerve. In the forests' great laboratory he had found that which the shelves of the apothecary had failed to furnish. These roots were from the principle ingredients of
